SKILLS

Technical Skills: Git, RESTful APIs, Responsive Web Design, CSS3, HTML5, MongoDB, Express.js, Node.js, Redux, React, JavaScript

Soft Skills: Adaptability, Problem Solving, Attention to Detail, Time Management, Teamwork, Effective Communication

PROJECTS

Time Management | *JavaScript, Git, HTML5, Responsive Web Design, CSS3*

-  Deployed Link : <https://fanciful-elf-ed4c09.netlify.app>
-  Github Repo : <https://github.com/Dheerajmlk/Frontend-fanatics>
- Led a team of three to design and implement an advanced user time management tool, ensuring seamless collaboration and communication among members.
- Coordinated cross-functional efforts to integrate features such as task management, Pomodoro timer, AI-powered task assistance, and Google Calendar synchronization.
- Maintained high standards of professionalism by managing project timelines, delegating responsibilities, and ensuring timely delivery of key milestones.
- Demonstrated adaptability by responding swiftly to shifting project requirements and incorporating user feedback for continuous improvement.
- Fostered a positive and productive team culture, promoting open communication and a proactive approach to problem-solving.

Medi-track | *JavaScript, Responsive Web Design, CSS3, HTML5*

-  Deployed Link : <https://meditrack-frontend.vercel.app>
-  Github Repo : <https://github.com/Dheerajmlk/MediTrack/tree/main/MEDITRACK>
- Collaborated with stakeholders to gather requirements and ensure the platform addressed user needs effectively.
- Communicated project progress and challenges clearly with mentors and peers, demonstrating strong verbal and written skills.
- Managed multiple tasks including design, development, and testing, consistently meeting project deadlines.
- Adapted quickly to feedback, iterating on features such as reminders and authentication for improved user experience.
- Maintained meticulous attention to detail in UI design and data handling, ensuring a reliable and user-friendly application.

Financial-Time-Machine | *JavaScript, React, zustand*

-  Deployed Link : financial-time-machine-six.vercel.app
-  Github Repo : <https://github.com/Dheerajmlk/Financial-Time-Machine/tree/main/Finance>
- Collaborated with end-users to gather feedback, ensuring the app met evolving user needs and expectations.
- Communicated project updates and technical details clearly with stakeholders, maintaining transparency.
- Demonstrated professionalism by managing project milestones and consistently meeting set deadlines.
- Adapted quickly to feedback and changing requirements, implementing updates efficiently.

- Maintained strong organizational skills by structuring codebase and documentation for easy future enhancements.
